

Friends of the Zoo [1]

The zoological garden in Bydgoszcz is supported by our group of devoted friends - people and institutions who share our concern for the fate of Polish wildlife. Most of their donations are used to co-sponsor particular animals; however, due to their generosity and support, we have also managed to bring several new species of animals to our garden and publish educational materials. To express our gratitude for the help and support we receive, we have given the best of our zoo's friends the honorary title of a "Friend of the Bydgoszcz Zoo". So far, the following people and institutions have been granted this title:

- Karolina Jamska, private individual
